DDSI WEEK 2018

Digestive Disease & Surgery Institute Week
February 14-20, 2018
Fort Lauderdale, Florida

Please join us for world class CME activities presented by one of the nation's "Top 2" hospitals. The expert international faculty will exchange medical and surgical concepts, including in-depth, detailed overviews of new, controversial and challenging digestive disease themes. Exhibit participation and displays will afford attendees the opportunity to interact with industry representatives to discuss the latest products, technologies and pharmaceuticals.

We look forward to welcoming you to Fort Lauderdale in February!

FEATURES:

- Multiple Combined Multidisciplinary General Sessions
- Interactive Live Surgery Days
- Fluorescence Guided Imaging Surgery
- Bariatric Surgery Day
- Scientific Paper Session
