## **2018 Two Day Courses** (Specialty Trainees and SAS Doctors)

**Monday 19th & Tuesday 20th February 2018 (London)**  
**Monday 21st & Tuesday 22nd May 2018**  
**Monday 15th & Tuesday 16th October 2018**

- Specifically designed for each clinical specialty
- Interactive and participant focused
- Provided by experts with experience in, and knowledge of, your particular challenges
- Opportunity to convert your learning into an academic award

Our Keele Courses aim to prepare you for the transition from training to independent specialist practice at consultant level, introducing you to contemporary concepts of leadership and management, as well as offering insights into the consultant appointment process. The course sessions are themed and linked to the Healthcare Leadership Model and the programme design includes interactive presentations from policy experts, personal development consultants and senior speakers experienced in surgical specialties.

Nationally recognised and specialty-specific, the two-day intensive courses have been designed for higher trainees and SAS doctors wishing to prepare for a Consultant position. This will support you in acquiring leadership and management skills, part of the curriculum requirements to complete your training.

Feedback from previous participants:-

*"Overall, this was a fantastic course, with an excellent faculty"*

*"Excellent speakers, well organised, interesting and interactive"*

*"Well organised - Very nice venue - Very helpful staff - I am going to recommend this course to my colleagues"*
