INTRODUCTION

Dear Colleagues,

It is my great honor and pleasure to invite you to participate at the 4th European Coloproctology Course (ECCW) which will take place the 4th and 5th March 2013 in Wuerzburg, Germany.

The ECCW provides a unique comprehensive step-by-step hands-on training program for diagnostic and surgery in the field of Coloproctology. Under the supervision of international well known experts attendees will be guided through a variety of diagnostic and surgical procedures (such as haemorrhoidectomy, fistula surgery, Altemeier-/ Delorme procedure, STARR/Contour Transtar, Pouch surgery). By means of detailed instruction videos, demonstrated by the experts, participants will be able to perform colorectal surgery on specially developed porcine models.

The Hot Topic Session of the course this year will include highly selected contributions of renowned experts around the world providing advanced information of current and future aspects in the treatment of rectal carcinoma. In addition we are proud and honored for including a State of the Art lecture being presented by Steven Wexner, USA.

I very much hope that you will be able to accept our invitation and make an important contribution to the success of this course.

I look forward to your participation and contribution.

Sincerely,

C. Isbert
